RE: DA2025/0524 - 315 Barrenjoey Road NEWPORT NSW 2106

This application is totally unacceptable for Newport. We already have 3 tobacconist shops in the small shopping, restaurants and services strip along Barrenjoey Road. These 3 shops are already encouraging too many of our youth to the deadly habits associated with smoking and vaping. I would like to see a decrease in the number of these shops, not an increase. Authorities, including Council must act responsibly for all of the community and safeguard it against any future medical issues associated with the sale of these products.
