Subject: DA 2021/1620 29 Moore Rd Freshwater

We left a message for you yesterday regarding the above development application.

We are concerned that the notification map is limited only to adjoining neighbours which includes 31 Moore Rd, the bottle shop operated by Harbord Hotel.

We are not able to see the application advertised on the council website nor other community publications. We also consider the time frame for submissions to be limited, being 12 October, 2021, this is during the area being in lockdown.

We believe the proposed development to include two additional bars, entertainment performance space, additional use of outdoor space and a recording studio will have an impact on the wider Freshwater community and village feel, not just the adjoining properties.

We would recommend a broader notification and advertising process and the extension of the submission period.

Many thanks for your consideration of this request.

Regards

Melinda & Allan King
