RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

RE: Application Number: DA2019/0200
centre building

Allenby Park is as unique parcel of bushland that contains water tributaries that feed into the ocean, native rainforest and many species of native fauna including wallabies, echidnas and breeding pairs of the Powerful Owl which is listed on the New South Wales Threatened Species Conservation Act as Vulnerable. I frequently use Allenby Park for walking and feel it is a unique paradise in our increasingly busy suburb.

This is a letter of objection, and a request that you deny the application regarding this proposed development. This development infringes on the bushland and represents overdevelopment of an area that needs to be kept as bushland.

This development will impact directly on the wildlife and bushland and also the many residents who have dwellings that back onto the valley. There is also a major concern that this would close a wildlife corridor which connects Allenby Park and it's adjacent reserves with Manly Dam. Light industry verging on bushland also poses the concern of bushfires.
Thank you for taking our objections and suggestions into account.

Yours sincerely
Vicki Chow
