**Subject:** Proposed development

Application No. DA2020/0147

To Date , the council has given this person.

Taken away natural bush land killing all the rabbits and making all the bird life go.

Also taking needed parking spots .

You are Discriminating against all whom live here to give it to One Person.

Do not let them build a parking spot at the end of the driveway, taking away more views from myself and the community, as they can put their cars into the ditch . Unseen .

Also move the house over in front of 19to21, 17 and 21 loch street as they feel it doesn't matter how many views or how ugly anything should look for anyone else except themselves.

So myself and the community do not have to look at the ugly dwelling and be

DISCRIMINATED again by the council.

Thank you Stephan 4/28 loch street Freshwater
