WASTE MANAGEMENT PLAN

Site: 1/45 The Crescent MANLY

DA No: DA202/2025 - PAN-159183

Local Council: Northern Beaches Council

J Motherway Constructions Pty Ltd is aware of protecting the environment and subsequently has adopted the following responsible Waste Management procedures.

These procedures are to be explained to all employees and subcontractors to assist in developing environmentally friendly and cost effective solutions to both demolition and waste materials.

Site Recycling Policy

All efforts are to be made to recycle as much material as possible. Demolitions are to be carried out in a manner that enables ease of sorting.

Where possible separate bins/areas are to be made available for:

Steel, Aluminium and Copper	scrap metal yard
Plastic coated wire	scrap metal yard
Cardboard	paper recyclers
Concrete and bricks	concrete recyclers
Timber	recycle on site
Vegetation	chipper for use as mulch
Cable drums	cable drum recyclers
Pallets	return to supplier for reuse

Disposal

All disposable waste will be removed from site by either a specified contractor or to local approved landfill site.

Thank you for your participation in the implementation of this plan on J Motherway Constructions Building sites.

Joseph Motherway
