Reasons for referral

Council's Water Management Officers are required to consider the likely impacts.

Officer comments

This application has been assessed for compliance with the Water Management Report for the subdivision of 29-31 Warriewood Road, prepared by Civil Cert and dated 1/1/2018. The application is recommended for approval.

Site coverage is less than the maximum 65% allowed under the WMR and the stormwater plan prepared by Ibrahim Stormwater Consultants meets requirements for the rainwater tank.

Care must be taken with sediment and erosion controls to prevent sediment entering the stormwater network and impacting the bio-retention basin on the site, which will be responsibility of the property owners to clean.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
