RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095

I would like to lodge a strong objection to the DA2019/1234 for SP 34159 Manly Wharf for rooftop dining. I overlook the rooftop of the concerned development. The addition of rooftop dining will have a high impact on the enjoyment of my balcony. All the sound will travel up at all hours of the day and night and disturb the residents in my and nearby buildings. The wharf has been significantly developed in the last 10-15 years and is very different to the building it was when I bought my apartment. It will bring increased road and foot traffic to the wharf day and night. Even though dining will finish at 10pm it will take time for the crowd to disperse and it will bring increased patronage and traffic to the Manly Wharf Hotel which is open longer hours.

There are already many dining facilities at the Manly Wharf and there is no need to concentrate more people on an already busy commuter and dining area.
