Dear Sir,

We are in favour of the proposed shopping centre on the corner of Garden and Macpherson Street provided that none of the existing homes can hear any exhaust fans, extractors or generators ie are the acoustic barriers totally efficient?

We think the suggested shops will be an excellent addition to 'life in the valley' and will ease traffic in congested ^{& parking} entries to Warnewood Square

With the intended population increase I am sure Warnewood ^{Square} shop owners will not suffer any loss of business.

yours sincerely
