**RE: DA2023/0669 - 16 Macpherson Street WARRIEWOOD NSW 2102**

I am responding to the proposed development. I note there is to be tree removal. Has anyone noted what bird species live in all these trees. i would be interested to see a detailed outline of which trees are to be removed. Has council taken into account road and flooding- this road floods every time we have heavy rains. I await a response.
