**RE: DA2020/0147 - 14 Ellen Street CURL CURL NSW 2096**

Stewart House is located next door to this development. It has been there for close to 90 years. It accommodates 85 public school children each fortnight during school terms and operates 24 hours a day while children are in residence.

In principle it has no objections to the development.

However any excessive noise during these times (day or night) cannot be accepted and would require any such work to stop during these periods.

Also our buildings sit on the same rock structures that this development is occurring so any vibration from any drilling could not proceed while children are here.

Obviously any damage incurred to our buildings or site during this development would require rectification and reimbursement of any lost revenue that may occur.
