Re DA 2023/0868

Dr Janet HAmilton
70 Anzac Ave
Collaroy NSW 2097

I wish to lodge my strong objection to this highly inappropriate high density housing development.

My major concern is dangerous traffic.

I have repeatedly contacted the council re dangerous driving and despite signage , heavy trucks driving through the area as a shortcut.

It is especially of concern as the streets of the area are designated cycleways primarily utilised by children and adolescents. I have repeatedly witnessed near misses of cyclists by trucks. My last contact from council, notified me that the area is now a designated “ black spot” and the issue handed to state government for rectification.

This building project will increase trucks in this dangerous area even further.

The project will set a precedent and further contribute to road danger.

Janet HAmilton
