Dear Chief Executive Officer,

Re: 10 Jamieson Pde Collaroy NSW 2097 DA 2021/0006

It is our understanding the residents of 10 Jamieson Pde DA 2021/0006 have been soliciting those that submitted a complaint regarding their non compliant DA to withdraw their submission so the submission will not have to go to the Development Determination Panel.

A member of the street had already been misinformed by a council representative that to move to the Development Determination Panel it only required 4 submissions. After numerous residents consulting with professionals we were informed that it required 10 submissions. There have been 10 submissions entered within the submission dates. If a DA applicant can persuade those that registered there issues with the non compliant structure to reduce the number of submissions below the limit required to move the DA to the Development Determination Panel the members of the local community should also be given equal opportunity and notification to increase the number of submissions regarding the non compliant DA submission, especially given that the notification only went to 8 directly adjacent residents all of whom put in submissions on the non compliant DA.

Can you please provide notification regarding this process and what are the next steps as we have major concerns regarding the impact this non compliant DA.

Thanks

Brigitte and Brad Tattersall
