RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095

I wish to place a strong objection to DA2019/1234.

The alterations and additions to accommodate an extra 438 outdoor seats will create an approximate total of 2,500 seats in the wharf area. This will adversely impact on the views of surrounding residences and it will cause a negative impact to the surrounding area with noise, thumping music, drinking and associated poor behaviour.

It will also significantly negatively affect the look of our heritage wharf and will discourage visitors to disperse to other venues and areas throughout Manly. This could potentially have a negative effect on all other venues in Manly. We want all businesses in Manly to prosper and the crowds to disperse throughout Manly.
