RE: DA2022/0456 - 62 Myoora Road TERREY HILLS NSW 2084

Hi,
My kids go to school to Terrey Hills public school which is across the road from the new flower power entrance. I am concerned that the trucks entering and leaving flower power will affect the school traffic and increase the risk of road accident considering the amount of families with children walking to and from school. The entrance will also be next to a bus stop used by many children (from the German school). It will be more appropriate for the heavy traffic to be redirected on the current entrance from Mona vale road or the side entrance which are both away from all the schools.
I think you should at least send an assessor during peak hours to monitor the traffic and the impact of this proposal
Thank you.
