Queenscliff NSW 2096

RE: DA2021/1620 - 31 Moore Road FRESHWATER NSW 2096

The proposed development is not crucial to this already commercially lucrative venue. As such it is paramount that the heritage importance of the building **MUST** be acknowledged. It is an important building in the area's architectural history. The existing roofline and building configuration must be maintained at all costs. I have no objection to any development that remains within that constraint.
