RE: DA2023/1778 3 Narrabeen Park Parade NORTH NARRABEEN NSW 2101

Dear Kye

Please accept this as a supplementary submission

In our original submission we were under the misapprehension that the 1.8m height proposed for the privacy screen was higher than permitted for a rear or side fence- however the 1.8m screen proposed is on top of the existing concrete retaining wall of No3 so that the combined height would be much more than 1.8m.

We still believe that this screen would be unsightly, ineffective in providing privacy to rear/south side balcony of No.3, and detrimental to the view of lake and ocean currently available to us and No7 between the western aspect of our house and the rear of No 3. We favour leaving screening of the new balcony to that presently provided by our common fence and plantings.

Yours faithfully

Michael and Susanne Morris
