RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

I would like to voice my disappointment at the dreadfully ugly wall that has been erected on Narrabeen beach. It looks like we are preparing for war.

The beach is there for everyone to enjoy not just those whose property backs onto it. Beach use does not simply include water sports but also those who enjoy walking or just sitting and enjoying the view. I understand the need to secure these homes but this is excessive. Sandstone blocks would have been a better compromise. I hope common sense will prevail and construction of this type will cease along the rest of the beach. I don't think anyone realised just what was being built.
