RE: DA2019/1426 - 77 Collingwood Street MANLY NSW 2095

I object to using the side window for takeaway as the the numbers of people gathering make it impossible to use the footpath at times. I have two kids and often trying to push a stroller or have kids in tow. Its very difficult.

The footpath is there for people to walk not for a business to use as a serving area. There is nowhere for people to stand when ordering, queing or receiving coffees then on the footpath. Maybe the cafe could alter the widow so it is recessed so there is a place for customers to stand? At the very least they should be leasing the footpath and a line be painted to show where people can wait and where teh path should be kept clear.
