#### **PROJECT DETAILS**

Client: Mr Matthew Ashcroft

Subject land: 20 Kevin Avenue Avalon Beach 2107

Lot Description: Lot 51, DP12074

Proposed development: Conversion of a single dwelling house to a dual occupancy

with minor alterations and additions

The report is prepared by Emma Rogerson

Bachelor of Architecture and Environments (USYD)

Master of Urbanism (Urban & Regional Planning) (USYD)

Planning Institute of Australia (Assoc.)

The report is reviewed by Mathew Fortunato

Bachelor of Architecture and Environments (USYD)

I certify that the contents of the Statement of Environmental Effects to the best of my knowledge, has been prepared as follows:

- In accordance with Section 4.12 of the Environmental Planning and Assessment Act 1979 and Clause 50 of the Environmental Planning and Assessment Regulation 2021;
- The statement contains all available information that is relevant to the environmental impact assessment of the proposed development;
- To the best of my knowledge the information contained in this report is neither false nor misleading.

#### 1.0 INTRODUCTION

This Statement of Environmental Effects has been prepared for Mr Matthew Ashcroft to accompany a Development Application (DA) to Northern Beaches Council for the conversion of a single dwelling house to a dual occupancy with alterations and additions at 20 Kevin Avenue, Avalon Beach.

More specifically, the development comprises of alterations and additions to create one dwelling on the ground floor and one dwelling on the upper floor. External works including a new swimming pool are also proposed.

Some of the works have already been undertaken and are subject of a Notice of Intention to Give a Development Control Order from Council dated 8 June 2022, and a portion of the works drawn on the Architectural Drawings submitted with this Development Application have not been constructed. **This Development Application therefore seeks approval for both retrospective and prospective works.** A Building Information Certificate (BIC) Application can be submitted for the physical structure of any unauthorised works approved by this DA.

The proposal is permissible with consent and is suitable for the site and the area. The proposal has been designed to relate to its site and to the streetscape in terms of appearance, envelope, setbacks, bulk and scale. The proposal will operate without any significant impact to the amenity of neighbouring properties. The proposal seeks retrospective approval on the unauthorised building works.

This statement assesses any numeric non-compliance as acceptable on merit, resulting in no adverse impacts and in compliance with all relevant DCP and LEP objectives.

The purpose of this SEE is to:

- Describe the site to which the application applies and its context;
- Describe the proposed development
- Describe the legislative framework against which the application is to be assessed and determined; and
- Provide an assessment of the environmental impacts in accordance with the Section 4.15 of the EP&A Act 1979.

This Statement has been prepared in reference to the following:

| Document                           | Author              | Date     |

#### 2.0 SITE ANALYSIS & CONTEXT

#### 2.1 The Site

The site is located at 20 Kevin Avenue, Avalon Beach and is legally described Lot 51 in Deposited Plan 12074 The site is located on the northern side of Kevin Avenue, between Wollstonecraft Avenue and Kevin Avenue.

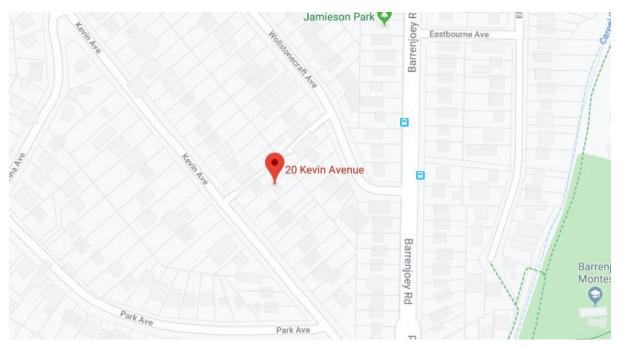

Figure 1 – Site locality map (Google Maps)

Figure 2 - Aerial map (NearMaps, 2022)

The site is rectangular with a total area of 929 square metres by survey, with a 15.24 metre street frontage to Kevin Avenue. The northern side boundary measures 60.96 metres and the southern side boundary measures 60.96 metres. The rear boundary measures 15.24 metres. The site falls from the street towards the rear by approximately 7 metres.

The site currently contains a two storey clad residential dwelling with metal roof, a metal carport, retaining wall, timber shed and timber cubby. The front and rear of the site is landscaped with grass and trees. Vehicular access is available from Kevin Avenue.

The land is zoned R2 Low Density Residential under the provisions of Pittwater Local Environmental Plan 2014 (PLEP 2014). The site is not located within a Heritage Conservation Area (HCA) nor is it identified as an individual Heritage Item. The site is not located within the vicinity of any heritage item or conservation area.

Figure 3 – Subject site as viewed from Kevin Avenue (Google Maps, 2019)

#### 2.2 The Locality

The site is located within an established residential suburb of Pittwater. The locality predominantly comprises of residential dwellings with varying architectural styles, size and height.

To the west and east of the site are residential dwellings of one to two storeys in height.

#### 2.3 Development History

A search on Council's DA Tracker returned the following results for development applications associated with the site:

#### **Development Application DA2020/0686**

Conversion of a single dwelling house to a dual occupancy with minor alterations and additions (Submitted: 23/06/2020)

A Notice of Intention to Give a Development Control Order letter dated 8 June 2022 was issued by Council to the property owners of 20 Kevin Avenue, Avalon Beach. The order related to the following:

- The property was split into a ground floor and first floor duplex and was unlawfully being used as two independent and self-contained dwellings.
- The internal stairs had been unlawfully removed.
- A kitchen had been unlawfully added in the first floor living area.
- An unlawful external timber stairway had been constructed to access the first floor.
- An unlawful external access doorway had been installed in the north-west elevation of the first floor.

This Development Application seeks retrospective approval for the use of these works as well as for approval for prospective unbuilt works. A Building Information Certificate (BIC) Application can be submitted for the physical structure of any unauthorised works approved by this DA.

#### 3.0 THE PROPOSAL

#### 3.1 Overview

The Development Application proposes the conversion of a single dwelling house to a dual occupancy with alterations and additions at 20 Kevin Avenue, Avalon Beach. More specifically, the development comprises of alterations and additions to create one dwelling on the ground floor and one dwelling on the upper floor. External works including a new swimming pool are also proposed.

This Development Application therefore seeks approval for both retrospective and prospective works.

The proposal has been designed to relate to its site and to the streetscape in relation to appearance, envelope, setbacks, bulk and scale. The contemporary design utilises high quality materials and detailing to present an unobtrusive visual outcome for the locality.

Please refer to plans prepared by Inlet Design Studio.

#### 3.3 Numerical Overview

A brief numerical overview of the development parameters for the proposed development is included in the following table.

Table 1: Key development components

| Component                        | Ground Floor Dwelling                        | First Floor Dwelling |
|----------------------------------|--|----------------------|
| Site area                        | 929m²  |                      |
| Gross Floor Area                 | 123.5m <sup>2</sup>                          | 121.3m <sup>2</sup>  |
| Floor Space Ratio                | 0.26:1                                       |                      |
| Height                           | 2 storeys                                    |                      |
|                                  | Maximum ridge RL 22.07 retain                | ed                   |
| Boundary setbacks                | Approximately                                |                      |

| Car spaces                       | 4  |                      |

# 4.0 STATUTORY PLANNING FRAMEWORK AND ENVIRONMENTAL ASSESSMENT

This Chapter provides an environmental assessment in accordance with Section 4.15 of the Environmental Planning and Assessment Act 1979.

#### 4.1 Statutory and Policy Compliance

The relevant matters for consideration under Section 4.15(a) of the EP&A Act, 1979, are identified as:

- State Environmental Planning Policy (Resilience and Hazards) 2021
- State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004
- Pittwater Local Environmental Plan 2014
- Pittwater 21 Development Control Plan

The primary statutory document that relates to the subject site and the proposed development is Pittwater Local Environmental Plan 2014. The primary non-statutory plan relating to the subject site and the proposed development is Pittwater Development Control Plan 2014.

#### 4.1.1 State Environmental Planning Policy (Resilience and Hazards) 2021

This Policy is to provide for a state-wide planning approach to the remediation of contaminated land. Subject to Clause 7, considerations should be given to the suitability of land in terms of contamination.

The subject site has a long history of being used for the residential purpose. Thus, there is no further consideration required under Clause 7(1)(b) and (c) of SEPP 55.

#### 4.1.2 State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004

SEPP (BASIX) 2004 applies to the proposed development. A BASIX Certificate is submitted with the application and confirms that the proposal will comply with the water, thermal comfort and energy efficiency requirements of the policy.

#### 4.1.3 Pittwater Local Environmental Plan 2014

The development complies with the provisions of Pittwater Local Environmental Plan 2014 (PLEP 2014).

#### Zoning and permissibility

The site is located in Zone R2 Low Density Residential.

Figure 5 – Land Zoning Map (NSW Planning Portal)

The development is identified to be *house alterations and additions*, which is permitted with consent in the R2 zone.

The objectives of the zone are:

- To provide for the housing needs of the community within a low-density residential environment
- To enable other land uses that provide facilities or services to meet the day to day needs of residents
- To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses

The proposal will facilitate additional housing needs in the community, on a lot that contains a large singular dwelling house. The proposal will increase the amenity of the site and will not result in any adverse effects to the surrounding dwelling houses or the locality, therefore will support the objectives of the site for ongoing residential uses.

#### Clause 4.3 Height of buildings

The Height of Building Map stipulates that the maximum building height permitted for the site is 8.5 metres. The maximum height of the proposed development is less than 8.5 metres, thus complying with the development control.

#### Clause 4.4 Floor space ratio

The Floor Space Ratio Map stipulates that there are no floor space ratio requirements for the site.

#### **Biodiversity Values Map (Non-EPI)**

Biodiversity Values Map identifies portions of the site to contain biodiversity value. The majority of significant landscaping is retained on site, supporting the natural environment on site. Only one tree is proposed for removal. The proposal is considered to ensure that native fauna, flora and their necessary ecological processes are protected, and the conservation and recovery of the natural environment is supported.

Figure 6 – Biodiversity Values Map – Non-EPI (NSW Planning Portal)

## 4.1.4 Pittwater 21 Development Control Plan

The development achieves a high level of compliance with the provisions of Pittwater Development Control Plan 21.

#### 4.2 Impacts of the Development

As noted in the above assessment against the provisions of the relevant Environmental Planning Instruments and Development Control Plan, the dual occupancy development is of a reasonable scale and nature, and does not present unreasonable environmental, social and economic impacts.

#### Impacts on Natural and Built Environment

The development does not impact upon native vegetation, soil conditions, foreshore environment or air quality.

The proposal incorporates a well-articulated design with carefully selected materials, finished and colours which are compatible with the existing neighbourhood character. There is no detrimental impact on adjoining properties. The proposed development does not result in any loss of visual and acoustic amenities to surrounding properties.

#### **Social and Economic Impacts**

The development increases the social amenity of the property with the increased habitable floor space and available housing, and upgraded private open space and parking provisions. This will improve the way of life for future residents.

The short term economic impacts are positive, with the generation of employment opportunity through the physical construction stages. The use of high quality materials will ensure a durable final built outcome, reducing the need to rebuild in the near future, resulting in a positive long term financial and sustainability outcome.

#### 4.3 Suitability of the Site

The subject site is considered suitable in size and shape to accommodate the development. The proposal does not introduce any incompatible uses to the site. The works are permissible under the zone R2.

#### 4.3.1 Access to Services

The site is located within an established residential area with excellent access to services and public transport. As the site is within an established urban area, electricity, sewer, telephone, and water services are readily available to the subject site.

#### 4.3.2 Parking and Access

The on-site parking provided complies with the parking requirements as prescribed by Pittwater Development Control Plan 21. It provides a logical and considered approach to the provision of off-street car parking. The design and layout of on-site parking and vehicle access/egress is compliant with AS2890.1.

#### 4.3.3 Hazards

The site is not in an area recognised by Council as being subject to flooding, landslip, bushfire or any other particular hazards. The proposed development is not likely to increase the likelihood of such hazards occurring and is considered appropriate in this instance.

#### 4.4 The Public Interest

The proposal is not considered to be against the public interest due to its positive visual outcome on the streetscape, and nominal negative environmental, social and economic impacts.

#### 5.0 CONCLUSION

The Statement of Environmental Effects (SEE) has been prepared to consider the environmental, social and economic impacts of the dual occupancy at 20 Kevin Avenue, Avalon Beach. The report has addressed the applicable policies and plans, and has provided an environmental assessment in accordance with Section 4.15 of the Environmental Planning and Assessment Act 1979.

The application proposes a permissible development within the subject site locality. The proposal incorporates appropriate design considerations to minimise any adverse impacts on the natural and built environment, and the amenity of the surrounding neighbourhood.

Given the benefits of the development and compliance with the relevant policies and plans, we conclude that the proposed development at 20 Kevin Avenue, Avalon Beach as described in this application is reasonable and supportable, and worthy of approval by Northern Beaches Council.
