**RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106**

I do not agree with the SNPP's refusal of the NSLSC Club renovations DA & I support Council's application to have the DA refusal overturned for the following reasons:

- Safety of the beach going public & the local community must take precedence over coastal erosion concerns
- It is not practical or safe to relocate the Surf Club from its current location
- The NSLSC Clubhouse is a listed heritage item with enormous cultural & social value & significance to the Newport locality & the local community all efforts must be taken to preserve this important building
- The Newport Surf Club undertakes a vital emergency services & social role for Newport & the Northern Beaches community & must be provided with operationally effective & safe facilities for the public & Club members
- Relocation of the Surf Club facilities from their logical location at the beach interface will severely impact the Surf Club's ability to undertake its safety surveillance & rescue operations which will significantly impact beach safety
- Relocation of the public toilets & change room facilities for their current location will create a range of aged & disabled access issues, potential safety issues for young children & families & will require significant loss of public open space or public parking.
