RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

I am in support of the development - Application Number: DA2020/0393. The development is well planned providing public access thoroughfare between Lockwood Avenue and Glenrose Place over private land which is most generous by the developer. The development will create public piazza space for the community to enjoy within a green public space. The development will create diversity and choice for the community. The Council should support this development and grant approval.
