RE: DA2023/0172 - 7 Gladys Avenue FRENCHS FOREST NSW 2086

I object this development application. The street is already busy, and there is not enough parking planned. The traffic in the area will become more congested, effecting the residents, hospital visitors and other community members.

It is an inessential and inconsiderate development plan. As well as this, there is no footpath in the street making it dangerous for visitors to the hospital and visitors for the residents of the street.

I do not consent to my information or personal details being published.
