**RE: DA2024/1249 - 0 East Esplanade MANLY NSW 2095**

The proposal is to create a venue for 700 additional people at Manly Wharf in the old IGA site, it includes yet another pub and a microbrewery plus spaces for live entertainment and dining with the same hours as Manly Wharf Hotel.

The issue is that we already have hundreds of people drinking in various locations around Manly Wharf, including the Wharf Bar and the Office. There are not enough facilities to manage the current load so how will we manage potentially 700 more in such a concentrated space?

It appears that there are inadequate resources at Council or within NSW Police to manage the crowds that we have at the moment. This is something that the Council should focus on before approving any more similar venues in the same proximity that will attract even more crowds.
