RE: DA2020/0442 - 231 Whale Beach Road WHALE BEACH NSW 2107

This development is completely inappropriate for the area, the excavations required will cause massive disruption to the surrounding residents and to the road infrastructure of the area. The access to the beach would also have to be widened to accommodate the increased vehicular traffic in the area and the increased foot traffic from customers. Parking is also restricted as it is without the development and will be only further compounded.
