Dear Council Market DA reps,

Market sales capacities in any market around the world is science, very accurate one: how many sales per hour can be made?

4 hours market means loss, as its not enough time to cover rent, wages and goods!!!

On top we pay you DA fees and other charges in order to enable you to send Rangers to make sure that we are loosing income!!!!

This is good enough to be : against the laws of Democracy!!!

I am sure you can enable us trading like any other market from 7am - 13pm - 6 hours all together and its legal in democratic countries.
