RE: Mod2016/0298 - 80 Evans Street FRESHWATER NSW 2096

I write to object to any further extension of working hours on the worksite. Already we are subjected to regular loud truck engine and compression braking sounds early in the morning before 6am as trucks arrive early, seeming to be ready for the first loads. With the regular blocking of Lumsdaine Rd due to movement of these large trucks, it is getting impossible to pass on this road without causing a dangerous blockage on Carrington Pde. I do not want any extended hours approved for construction on this site.
