**RE: DA2019/1478 - 1 Narrabeen Park Parade NORTH NARRABEEN NSW 2101**

Further to my previous submission on 3/02/2020 I am concerned that

1. the acoustic report fails to mention the effect of the noise of live music on the travellers in the caravan park nor the general public who enjoy the natural amenity of the area.
2. the arborist is concerned about the effect of building works damaging the roots of the magnificent pine trees. I am concerned that the arborists recommendations for close oversight will be ignored. Once these trees are damaged they cannot be restored.
