Subject: Objection - DA2025/0132

Dear Council,

I would like to object to DA2025/0132 for the following reasons. The primary reason is traffic congestion. The area is already a pinch point and it takes multiple lights to get through the main intersection. The traffic already frequently gets blocked at the roundabout. There is already a KFC very close and the queues often block the road and back up into the main intersection. Bringing more traffic and congestion would be ridiculous. There are unit blocks right next to the proposed site that would have their views and amenity reduced. I also worry about increased risk to pedestrians. I also worry about the hours of operation of proposed McDonald's which would bring noise, traffic, drunkenness, etc to the area.

Thank you

Kind regards,
Caty
