**Subject:** TRIMMED: Positive DA2024/1216 - Submission of Support

Dear Council,

As an active boater in Middle Harbour for over 20 years, I fully support the proposed upgrades to North HarbourD Marina under DA2024/1216. The removal of swing moorings and creation of a 50m-wide navigation channel will greatly improve safety for small craft, including kayaks and dinghies, in an area that is currently overcrowded.

The addition of modern dinghy and kayak storage in place of the outdated slipway is a necessary improvement that aligns with environmental standards while ensuring better access for the boating community. The revised proposal maintains a reasonable balance between infrastructure upgrades and minimal impact on the surrounding area.

I support this proposal and encourage its approval.

Active boater North Harbour 25 year +  
PO Box 69, Double Bay
