RE: DA2021/2567 - 60 Federal Parade BROOKVALE NSW 2100

I wish to oppose the approval of DA2021/2567. The residents in this neighbourhood already suffer from accessibility issues leading into the area from the surrounding main roads, meaning that the current congestion caused by St Augustine's is impossible to avoid. The buses that park outside of the school on Alfred Rd already obstruct traffic turning off Pittwater Rd and this congestion has at times seen cars stationary on Pittwater Rd (very close to a major intersection) waiting to turn left. Also, the buses that leave the school on Alfred Rd have to turn right onto Federal Pde which is not wide enough to accommodate the buses, causing traffic on Federal Pde to have to reverse back to allow the buses into the street. Both these situations cause serious safety issues for both drivers and pedestrians, exacerbated by the large number of inexperienced P-platers. Buses should not be allowed into these streets at all and should only be alighting and picking up on Pittwater Rd. These streets already cannot support the current traffic and no proposal encouraging anymore traffic into the area should be approved.
