I will be very sad to see the Frenchs Forest market leave its present location as it was very convenient for me. However, if it can be held in the Pittwater RSL car park, I would still attend the market as I like being able to buy organic fruit and vegetables and other vegetarian meals, not available in stores, from the stall holders. Its a great market and has been going for as long as I've been living on the Northern Beaches. I hope you consider their application favourably.
