RE: DA2020/0211 - 82 - 84 Bower Street MANLY NSW 2095

Hi,

I am not sure how this is an alteration. The house has been completely demolished. It seems to be that there is something untowards going on where some people are schooling the system by putting DAs in for alterations and then building what ever they want.

This isn't how the DA system should work is it? Shouldn't people work within the rules set out? If this goes ahead is it setting a precedent where the council will lose control over developments?
