Dear Madam

GEOTECHNICAL REVIEW OF REVISED ARCHITECTURAL DRAWINGS
PROPOSED ALTERATIONS AND ADDITIONS
1180 BARRENJOEY ROAD, PALM BEACH, NSW

We have been provided the revision 3 of the architectural drawings prepared by Daniel Boddam (Project No 0305, DA series No 000, 100, 101, 102, 103, 200, 201, 300, 500) all dated 15 May 2018. From review of these drawings we understand a 0.85m tall retaining wall set back about 1m from the site's northern boundary is proposed.

The proposed retaining wall and backfill will not affect our Landslide Risk Assessment findings, provided the recommendations in our report (Ref 29578VMrpt Rev2 dated 17 Jan 2017) are adhered to.

Should you require any further information regarding the above, please do not hesitate to contact the undersigned.

Yours faithfully
For and on behalf of
JK GEOTECHNICS

Matthew Pearce
Senior Geotechnical Engineer
