Subject: TRIMMED: DA2022/2281

To Whom it May Concern;

I write to you in support of the above DA application for Pilu at Freshwater.

Pilu at Freshwater have been a strong economic contributor to the region for many years. Both in its current form and previously as the Freshwater Restaurant, this venue has provided immense industry opportunities for young people through our organisation to develop industry skills and relevant employability skills to local secondary students who are studying hospitality. They host an average of 2 students per week and have employed countless young people as a result of their program participation. Their involvement in the program is voluntary and they receive no financial incentives for their involvement.

Supporting their DA for improvements to their facilities will ensure that Pilu remains a strong support and provider of these industry emersion opportunities. Additionally, support the strong local hospitality economy we have on the beachces.

If you require statistics in reagrads to their participation or anything further, please feel free t contact me directly on the details below.

Kind Regards,

SamanthaKing JP
