RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096

I am outraged at the council regarding this proposal.

It is not surprising that people in favour of this development come from residents of suburbs far away or schools and clubs who will benefit the most from access to additional floodlit fields at night. But local residents already make significant sacrifices for the community with respect to weekend traffic flow due to the playing fields and now to extend this throughout the week and into evenings is too much!

There is a severe lack of consideration for the local residents and no thought has been made for the local wildlife and the litter evening matches will bring.

I strongly object to the floodlights!
