Re: changes to Bowling Green, Harbord Diggers

I would like to express my objection to the DA for alterations to the bowling green in the Watermark Village. Currently it is a multi use grassed area and the majority of residents want it to stay that way.

Another reason for my objection is the increased noise it would create, as the plan is for use 7 days pw. This on top of the noise we already put up with from the Outdoor Terrace area in the club below.

We don't need a bowling club as I believe Manly and Harbord Bowling Club are sufficient for the area.

Regards
