RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

Dear Sir, I would like to raise an objection to this development application. The proposed building is too large when compared to adjacent properties and will adversely affect the appearance of Robertson Rd and surrounds. It is extremely important for the residents of Newport that any proposed development in this area meets with the provisions of the Newport Master Plan. On a personal note, I feel very sad and disheartened that the Council is entertaining approval for any plan that does not meet the wishes of the local residents. For once, let's see the Council uphold the wishes of the majority take this opportunity to make Newport a thriving village with a community square and boutique shops.
