RE: DA2024/0675 - 80 - 82 Mona Vale Road MONA VALE NSW 2103

Pickle ball is not only a very popular sport but also has many advantages. These include appropriateness for a wide range of age categories and financial accessibility, As such it provides much needed physical exercise for all and is a vehicle for community cohesiveness. In the interests of general community wellbeing it is important to have sufficient suitable venues available for play. I urge you to consider this in your decision making process.
