RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

Application Number: DA2020/0393 - I am in support of the development on the old Council library site as this will clean up the area and create public space for the community and will likely bring in healthcare businesses into the proposed commercial/retail shops adding to diversity to the area and create jobs for young people along with much needed construction jobs as well as jobs for other related trades that will stimulate and create jobs to support local community and the state in these trying times as we come out of current crises. Council should approve this development as it is good for business and job creation.
