RE: DA2020/1097 - 0 Campbell Parade MANLY VALE NSW 2093

I continue to be alarmed by the proposed addition of sports lighting on Passmore Reserve. Despite submissions and concerns from so many residents who would be negatively affected by these changes you seem to be moving ahead regardless. I hardly think that hours of operation being reduced slightly will make any difference. We still have issue of noise, parking, rubbish, infringement on local residents way of life and peace and quiet. Has anyone measured the noise volume created by events that take place at Passmore Reserve? Does anyone making these decisions to affect so many residents actually live in the proximity of the reserve? Or is judgment passed by others living far enough away not to be affected? We already have to face excessive parking, slamming doors, arriving early, leaving late, rubbish & now you're expecting us to do it each day through into the evening. Many people are working from home, suffering anxiety and other issues as a result of the current COVID environment and now you want us to accept something that could have a very negative impact on our health & well being & way of life. The last thing anyone wants to listen to after they have finished for the day is sports games and everything that goes with it. Is that what any of you would want next to your home each evening? The idea of extra exercise & sporting activities is a good thing but it needs to be in the right place with everyone's interests at heart not just those benefiting from it. I do believe that far more people will suffer mentally & health wise than those that could benefit from the plan. Do you have anyone acting on behalf of those likely to suffer from this development or is it only those in favour that are making decisions? I am really very upset about this as are so many residents that I talk to. This should most definitely NOT go ahead.
