Subject: Application development DA2020/0661

Dear Sir,

This tower proposal has been declined on at least 2 prior applications. To have a telecommunications tower on a playing field for soccer and baseball with netball courts, a childrens playground , a primary school, a newly made skatepark and many community halls in close proximity is ludicrous. It is a well known fact, that these towers are not good for the health and to have so many childrens play areas and sporting activities all year round , it defies me why the residents have to keep fighting to have the towers placed elsewhere.

It is realised that these towers are necessary but why in areas endangering our youth.

Why can't these towers be placed in the dog park across Griffin Rd where it is in less proximity to such a busy area. And how many times must the residents plead for the tower to be placed elsewhere

Please don't let our requests fall on deaf ears. Stop this application and please listen to the residents of the area.

Regards

Stephen Grant
