RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Dear Planning Officer,

In the absence of siting a construction management or traffic management plan it is respectfully requested that access to the beach from Clarke St be maintained, full on street parking in Clarke St be maintained (i.e. not occupied during the construction period by way of work zones), and that properties to the south of Clarke St are not impeded by construction zones bordering the properties on the beach side boundaries.

It is submitted that maintaining beach access is of the utmost importance and other users of the beach should not be unfairly impeded by private parties seeking to occupy a public space as a personal construction site.

Regards,
Evan
