RE: DA2022/0469 - 1102 Barrenjoey Road PALM BEACH NSW 2108

I would like to register my complaint against the proposed fish and chip shop redevelopment next to barrenjoey house.

I have been a member of the Pittwater community for nearly 15 years and this building would severely undermine the character and charm of the area. It's far too large, dwarfs other buildings and sticks out. The new proposal does not address the feedback provided by the council previously.

It would be a true tragedy and detriment to the local area if the proposed building were allowed to go ahead. On behalf of myself and other members of this community I implore you to reject this proposal and request serious modifications to the design.
