RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

This development needs to be changed and discussed more thoroughly with the community. I believe there is other development applications forthcoming for Robertson road and it would be great if they could devise a strategy that is in keeping with the Village. I would like to see a pedestrian type mall in Robertson road with no cars or access to parking. This is the perfect opportunity for the council to agree with the residents view who actually live here. It would be criminal to allow this to go ahead without the community voices being heard
