Northern Beaches Pickleball Association has the second highest number of members in Aust. next to the Gold Coast group. It currently has over 1000 members and is growing very quickly. The sport is suitable for players of all ages. Although I don't know but I would say that the majority of players in most Pickleball groups the ages range from mid twenties to late seventies and beyond. It is a sport where people who are unable to successfully play racquet sports, tennis squash and the like can readily pick up a Pickleball Bat and play. This sport encourages people to get out of the house get some exercise and have fun. Because it is growing at such a great rate more courts are required and therefore I totally support the application to build courts at Pittwater RSL
