Subject: DA at 205 Riverview Road, Avalon

Attention Catriona Shirley

Hello,

My name is Kathleen Kohn and I live at 184 Riverview Road, Avalon.

The property across the street from us at 205 Riverview Road has some poles set showing the height of the intended roof line of new construction at their property. This will be higher higher than the current roof and will block more of the views from our property. It appears the owners are building both very high and across the width of the property. How can it be necessary for the building to be higher when the property has waterfront views.

Recently I had tried to contact you by phone several times but the message obviously did not reach you.

Thank you,

Kathleen Kohn
