RE: DA2020/0264 - 57 Myoora Road TERREY HILLS NSW 2084

I refer to both DA2020/0263 and DA2020/0264 and submit that these are unsuitable applications given the area in which they are proposed, my reasons being:- 1. Children walk along Myoora Road to and from school on the only footpath provided, trucks coming in and out of this at the proposed times will be causing some danger to them together with the fact that buses stop near there and already have a tight squeeze when there's more than one of them. Truck drivers don't see children so accidents are going to occur. 2. The proposed hours of operation are far too extreme and lengthy which will cause disturbances and noise for residents, and if this goes ahead, the hours should be reduced to 7am - 5pm only, 5 days per week, not weekends. Noise will be created not only by the constant heavy trucks, but also the unloading and loading of items such as metal racking and fabricated steel products. These DA's need to be considered collectively as the site will effectively be used as one business. The zoning is light industrial and not intended for heavy trucks entering and exiting non stop all day and night. Please put a stop to these unsuitable applications.
