RE: PEX2014/0004 - 9 Howard Avenue DEE WHY NSW 2099

WLEP2011 set height restrictions to ensure that the scale of this development was not excessive with regards to increasing traffic congestion to a complete lock, parking provided, aesthetics & common sense planning in centre of Dee Why. Furthermore the usage & availability of council's car-parking is also to be "sold off" in the adjacent blocks for a proposed police station. Please note my objection to PEX2014/0004 increasing the height & scale of the development as this is out of keeping with the surrounding buildings.
