**RE: DA2018/1481 - 1 / 0 Veterans Parade NARRABEEN NSW 2101**

My wife, Sandra, and I are very much in favour of this tower being constructed in the War Vets Village in which we reside. Since moving here in April, 2010 we have experienced very poor mobile phone reception and usually have to move outside our unit to make a call. This problem has been exacerbated when my wife's Medtronic Pacemaker was updated and replaced last year and she was issued with a device designed to read results from the pacemaker and transmit them to Medtronic. Unfortunately not once has this been achieved as the device cannot locate a signal point to send its results. This surely is an occupational, health and safety issue which needs prompt attention!
