**RE: DA2018/1667 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100**

This development will impact significant natural bush areas that will be built on and also the surrounding areas of bush land as they will need to be cleared as an asset protection zone. Manly Dam will be impacted significantly and negatively by this development. Our environment is a precious and finite resource that is constantly impinged on and must be protected. As Chair of Greater Manly Residents' Forum I will be bringing this proposed development to the attention of our meeting this coming Monday night 5 November. Due to the cut off date for submissions I respectfully request that a late submission be accepted from our Forum on Tuesday 6 November. I also put this forward as my personal submission. Kind Regards,  
Denise Keen - Resident and Chair GMRF
